

4TH OF JULY FLAG GOLF TOURNAMENT ENTRY FORM

In a Flag tournament each golfer starts the round with a designated number of strokes and plays until they run out. Each golfer in the tournament carries a flag with their name on it as they play, and uses it to mark where their final shot came to rest.

For example, if a golfer has a handicap of 20 from the white tees, that player would be allotted 92 strokes for the round (20 strokes plus the par on the course). After the player hits their 92nd shot, the flag with your name on it is planted in the ground where that shot came to rest. The golfer that has progressed the farthest on the course and planted their flag is the winner.
